

Rally With Striking MOTT'S Workers

On May 23rd, corporate giant Dr. Pepper Snapple forced the 300 members of RWDSU/UFCW Local 220 to strike at the Mott's plant in Williamson, NY.

Despite record profits of \$555 million last year, Mott's demanded painful wage and benefit cuts and refused to bargain in good faith with its highly skilled workforce.

DPS is the poster child for corporate greed, attacking their workforce to pad their own paychecks.

Local 220 members are standing up to corporate greed on behalf of all workers.
